SUMMARY

Data and integration engineer with 2+ years at Monotaro Indonesia (subsidiary of Japan's MonotaRO), building daily data syncs and ERP / e-commerce integrations on Google Cloud. Built an SAP-to-Magento e-catalog integration that has handled billions of rupiah in sales, and batch jobs that move ~7–9 million records a day. Ships production systems fast with AI-assisted development and runs six self-hosted apps on a hardened Linux server. Works in English daily with a Japanese manager.

WORK EXPERIENCE

PT Monotaro Indonesia

IT Engineer

Jakarta, Indonesia (Hybrid)

July 2024 – Present

- Built an **Oracle APEX** middle system that syncs enterprise customers' **SAP** catalogs with the company's **Magento** store, giving customers an e-catalog inside their own ERP; live since January 2026 and handling **billions of rupiah in sales**.
- Built batch data-sync jobs processing **~7–9 million records per day** using concurrent workers and selective sync logic.
- Orchestrate data pipelines on **Google Cloud**: Cloud Workflows, Dataform, Cloud Run (jobs, functions, services), Cloud Scheduler and BigQuery; manage IAM permissions and Workload Identity Federation.
- Automated Oracle APEX releases (database schema + application) with **GitHub Actions**, **Playwright** and Workload Identity Federation, replacing a manual, effort-heavy deployment process.
- Develop and support **Odoo ERP** across sales, purchase, manufacturing and accounting modules.
- Maintain Oracle, BigQuery, PostgreSQL and MongoDB databases; work under Japanese engineering standards.

Earlier career – customer-facing roles

2021 – 2023

- Customer Service Agent L1**, Tiket.com via PT Infomedia Nusantara (2023): bilingual support for Indonesian and English-speaking customers.
- Inpatient Admission**, RS Pondok Indah Group (2022); **Children Social Worker**, Ministry of Social Affairs (2021).

PROJECTS

Built with AI-assisted development; all live on my own hardened Ubuntu VPS (sandboxed systemd services, Caddy/HTTPS, SSH key + TOTP, nightly verified backups).

Clip Studio | Python, FastAPI, FFmpeg, Groq Whisper, Gemini, SQLite

- Turns long videos into captioned 9:16 clips: watches YouTube, Twitch and Kick channels (WebSub, EventSub, APIs), transcribes word by word, uses an LLM to pick the best moments, tracks faces for smart cropping, and auto-posts approved clips to Instagram Reels.

BashGames | Python, FastAPI, WebSocket, PocketBase, three.js

- Real-time multiplayer platform with 69 games: server-authoritative engines with hidden per-player state, restart-safe rooms, latency compensation, AI-judged games with provider fallback, and simulation tests for every engine.

Financial Management | Python, FastAPI, PocketBase, Gemini, Google Apps Script

- Household finance app in daily use: HMAC-signed bank-email ingest, rule-based parsers with LLM fallback, redaction of account numbers before any AI call, envelope budgeting and Web Push.

Couple Suits | Python, FastAPI, Jinja, PocketBase, Gemini, Cloudflare FLUX

- E-commerce storefront and admin CMS with an AI design studio that generates product designs; vouchers, family-set pricing and WhatsApp ordering.

SKILLS

Cloud & Data: Google Cloud (Workflows, Dataform, Cloud Run, Cloud Scheduler, Cloud Build, BigQuery, IAM, Workload Identity Federation), ETL, data integration

Databases: SQL, Oracle (PL/SQL, APEX), BigQuery, PostgreSQL, MongoDB, MariaDB, Firestore, Redis, SQLite

ERP & Integration: Odoo (sales, purchase, manufacturing, accounting), SAP–Magento integration, REST, GraphQL

Languages: Python (FastAPI), SQL, JavaScript / TypeScript (Node.js, React, Next.js), Go (working proficiency), Shell

DevOps: Docker, CI/CD, GitHub Actions, Playwright, Linux (Ubuntu, systemd, Caddy), server hardening

AI: LLM integration (Gemini, Groq Whisper, Cloudflare Workers AI), AI-assisted development with Claude Code

EDUCATION

Hacktiv8 Indonesia – Full Stack JavaScript Immersive; Honor's Award, top score in batch (97.90/100)

Jan – Apr 2024

Politeknik Kesejahteraan Sosial Bandung – B.A.Sc. Social Work, GPA 3.67/4.00

2016 – 2020

CERTIFICATIONS & LANGUAGES

English: EF SET 75/100 (C2 Proficient), daily working language | **Indonesian:** native | **HackerRank:** SQL (Intermediate), Problem Solving (Intermediate)
